

Fine Art / Giclée Prints

Giclée (or Giclée and pronounced 'gee-clay') - originally from a French word meaning 'little squirt' and refers to spraying fine drops of ink or dye onto paper or canvas. Here at Kristal we only use the very best fine art papers by Hahnemuhle and Permajet. Our giclee prints are for professional photographers and artists who require the highest quality, archival digital inkjet prints .

The Hahnemühle German Etching 310gsm paper is a heavyweight board with a with a fine surface texture. It is one of the most popular media worldwide for artwork and photography.

Whiter than white...

Featuring many of the characteristics that have made the Portrait Smooth White 285 one of most recognised and used papers, this whiter based version makes images jump off the page. This acid-free, smooth, 285gsm base has been given our superior coating to give a more lively feeling to the subject.
